

**Hydrogen Release Compound (HRC®)**  
**MATERIAL SAFETY DATA SHEET (MSDS)**

**Last Revised:** February 10, 2004

---

**Section 1 - Material Identification**

---

**Supplier:**

**REGENESIS**

1011 Calle Sombra  
San Clemente, CA 92673

**Phone:** 949.366.8000

**Fax:** 949.366.8090

**E-mail:** [info@regenesiS.com](mailto:info@regenesiS.com)

**Chemical Name:** Propanoic acid, 2-[2-[2-(2-hydroxy-1-oxopropoxy)-1-oxopropoxy]-1-oxopropoxy]-1,2,3-propanetriyl ester

**Chemical Family:** Organic Chemical

**Trade Name:** Hydrogen Release Compound® (HRC®)  
Glycerol tripoly lactate and Glycerol

**Product Use:** Used to remediate contaminated soil and groundwater  
(environmental applications)

---

**Section 2 – Chemical Identification**

---

<u>CAS#</u>	<u>Chemical</u>
201167-72-8	Glycerol Tripoly lactate
56-81-5	Glycerol
50-21-5	Lactic Acid

---

**Section 3 - Physical Data**

---

**Melting Point:** Not Available (NA)

**Boiling Point:** Not Determined (ND)

**Flash Point:** ND

**Density:** 1.3 g/cc

---

**Section 3 – Physical Data (cont)**

---

**Solubility:** Acetone and DMSO

**Appearance:** Viscous amber gel/liquid

**Odor:** Not detectable

**Vapor Pressure:** None

---

**Section 4 - Fire and Explosion Hazard Data**

---

**Extinguishing Media:** Carbon Dioxide, Dry Chemical Powder or Appropriate Foam.

Water may be used to keep exposed containers cool.

For large quantities involved in a fire, one should wear full protective clothing and a NIOSH approved self contained breathing apparatus with full face piece operated in the pressure demand or positive pressure mode as for a situation where lack of oxygen and excess heat are present.

---

**Section 5 - Toxicological Information**

---

**Acute Effects:** May be harmful by inhalation, ingestion, or skin absorption. May cause irritation. To the best of our knowledge, the chemical, physical, and toxicological properties of the glycerol tripoly lactate have not been investigated. Listed below are the toxicological information for glycerol and lactic acid.

**RTECS#:** MA8050000  
Glycerol

	<b>Lactic acid</b>	

**Only selected registry of toxic effects of chemical substances (RTECS) data is presented here. See actual entry in RTECS for complete information on lactic acid and glycerol.**

---

**Section 6 - Health Hazard Data**

---

**Handling:** Avoid continued contact with skin. Avoid contact with eyes.

In any case of any exposure which elicits a response, a physician should be consulted immediately.

**First Aid Procedures**

**Inhalation:** Remove to fresh air. If not breathing give artificial respiration. In case of labored breathing give oxygen. Call a physician.

**Ingestion:** No effects expected. Do not give anything to an unconscious person. Call a physician immediately.

**Skin Contact:** Flush with plenty of water. Contaminated clothing may be washed or dry cleaned normally.

**Eye contact:** Wash eyes with plenty of water for at least 15 minutes lifting both upper and lower lids. Call a physician.

---

**Section 7 - Reactivity Data**

---

**Conditions to Avoid:** Strong oxidizing agents, bases and acids

**Hazardous Polymerization:** None known

**Further Information:** Hydrolyses in water to form Lactic Acid and Glycerol.

---

**Section 8 - Spill, Leak or Accident Procedures**

---

**After Spillage or Leakage:** Neutralization is not required. This material may be burned in a chemical incinerator equipped with an afterburner and scrubber.

**Disposal:** Laws and regulations for disposal vary widely by locality. Observe all applicable regulations and laws. This material, may be disposed of in solid waste. Material is readily degradable and hydrolyses in several hours.

No requirement for a reportable quantity (CERCLA) of a spill is known.

---

**Section 9 - Special Protection or Handling**

---

**Should be stored in plastic lined, steel, plastic, glass, aluminum, stainless steel, or reinforced fiberglass containers.**

**Protective Gloves: Vinyl or Rubber**

**Eyes: Splash Goggles or Full Face Shield  
Area should have approved means of washing eyes.**

**Ventilation: General exhaust.**

**Storage: Store in cool, dry, ventilated area. Protect from incompatible materials.**

---

**Section 10 - Other Information**

---

**This material will degrade in the environment by hydrolysis to lactic acid and glycerol. Materials containing reactive chemicals should be used only by personnel with appropriate chemical training.**

**The information contained in this document is the best available to the supplier as of the time of writing. Some possible hazards have been determined by analogy to similar classes of material. No separate tests have been performed on the toxicity of this material. The items in this document are subject to change and clarification as more information becomes available.**
