To: Environmental Remediation Practitioners

Subject: PersulfOx®: Royalty Free Use

Dear Environmental Professional:

I want to inform you that every purchaser of PersulfOx® obtains REGENESIS' advanced Catalyzed Persulfate technology plus all of the traditional persulfate activation technologies formerly associated with FMC Corporation—all royalty free.

FMC Corporation's peroxygen unit, (now PeroxyChem), as part of an agreement to become REGENESIS' supplier of the persulfate used in PersulfOX, granted to all purchasers of PersulfOX a paid-up license to all FMC environmental persulfate technologies (all patents relating to Klozur®).

Simply put, when you purchase PersulfOx you get the most advanced technology, the rights to apply the product in the subsurface, and the rights to perform additional activation with any of the traditional technologies formerly used in the industry.

If you have any questions on this matter or would like to discuss it further please contact me.

Sincerely,

A handwritten signature in black ink, appearing to read "S.B. Wilson".
